Get Company

GET <https://api-sandbox.onde.app/v1/company/{companyId}>

Responses

200: Company for the given id

401: Authenticated user is not authorized to perform the action

Get Current User Profile Info

GET <https://api-sandbox.onde.app/v1/company/{companyId}/profile>

Responses

200: Current profile info

401: Authenticated user is not authorized to perform the action

Get All Report Requests

GET <https://api-sandbox.onde.app/v1/company/{companyId}/report>

Responses

200: Company reports

401: Authenticated user is not authorized to perform the action

Create Report Request

POST <https://api-sandbox.onde.app/v1/company/{companyId}/report>

Body

```
{
  "from": 0,
  "to": 0,
  "reports": [
    "ORDERS"
  ]
}
```

Responses

200: Created reports

401: Authenticated user is not authorized to perform the action

Get Report Download Link

GET
<https://api-sandbox.onde.app/v1/company/{companyId}/report/{reportId}/{reportType}/download>

Parameters

reportId

string (path)

The id of report to download

reportType

string (path)

Available values:

ORDERS, DRIVERS, PASSENGERS, DISPATCHERS, PAYMENTS, DRIVER_TRANSACTIONS, COMPANY_BILLING

The type of report to download

Responses

200: Download url

401: Authenticated user is not authorized to perform the action

Cancel Report

PUT <https://api-sandbox.onde.app/v1/company/{companyId}/report/{reportId}/{reportType}/cancel>

Parameters**reportId**

string (path)

The id of report to cancel

reportType

string (path)

Available values:

ORDERS, DRIVERS, PASSENGERS, DISPATCHERS, PAYMENTS, DRIVER_TRANSACTIONS, COMPANY_BILLING

The type of report to cancel

Responses

200: Cancelled report

401: Authenticated user is not authorized to perform the action

Store To Google Drive

POST <https://api-sandbox.onde.app/v1/company/{companyId}/report/{reportId}/{reportType}/store>

Parameters

reportId

string (path)

The id of report to store

reportType

string (path)

Available values:

ORDERS, DRIVERS, PASSENGERS, DISPATCHERS, PAYMENTS, DRIVER_TRANSACTIONS, COMPANY_BILLING

The type of report to store

Body

```
{  
  "gDriveToken": "string"  
}
```

Responses

204: The report successfully stored to google driver

401: Authenticated user is not authorized to perform the action

Delete Report

DELETE <https://api-sandbox.onde.app/v1/company/{companyId}/report/{reportId}/{reportType}>

Parameters

reportId

string (path)

The id of report to delete

reportType

string (path)

Available values:

ORDERS, DRIVERS, PASSENGERS, DISPATCHERS, PAYMENTS, DRIVER_TRANSACTIONS, COMPANY_BILLING

The type of report to delete

Responses

204: The report successfully deleted

401: Authenticated user is not authorized to perform the action

Transfer Operator Profile To Another Account

POST <https://api-sandbox.onde.app/v1/company/{companyId}/operator/{operatorId}/transfer>

Parameters

operatorId

string (path)

The id of operator profile to transfer

Body

```
{
  "identityType": "PHONE",
  "identity": "string"
}
```

Responses

204: The operator profile successfully transferred

401: Authenticated user is not authorized to perform the action

Update Operator Profile

PATCH <https://api-sandbox.onde.app/v1/company/{companyId}/operator/{operatorId}>

Parameters

operatorId

string (path)

The id of operator to patch

Body

```
{
  "customKey": "string",
  "state": "string"
}
```

Responses

200: The patched operator profile

401: Authenticated user is not authorized to perform the action

403: In case restricted permissions can not be granted or removed

Get Customer Orders

GET <https://api-sandbox.onde.app/v1/company/{companyId}/customer/orders>

Parameters

orderStatus

array<string> (query)

Available values:

CANCELLED_BY_OPERATOR, CANCELLED_BY_DRIVER, CANCELLED_NO_CUSTOMER,
OBSOLETE_CANCELLED_PASSENGER_OUT_OF_CONDITION,
CANCELLED_DECIDED_NOT_TO_GO, CANCELLED_NO_TAXI,

PAYMENT, FINISHED_PAID, FINISHED_UNPAID, OBSOLETE_NEW, PICK_UP_POINT,
DROP_OFF_POINT, STOP_POINT

Order statuses to filter

from

integer (query)

Filter orders completed starting from

to

integer (query)

Filter orders completed ending to

searchQuery

string (query)

Phone number to filter by

Responses

200: Customer orders list

400: In case from query param is null or empty, from is greater than to or range is bigger then one month

401: Authenticated user is not authorized to perform the action

Get Order

GET <https://api-sandbox.onde.app/v1/company/{companyId}/customer/orders/{orderId}>

Parameters

orderId

string (path)

Id of requested order

Responses

200: The requested order

401: Authenticated user is not authorized to perform the action

Get Drivers

GET <https://api-sandbox.onde.app/v1/company/{companyId}/driver>

Responses

200: Company drivers

401: Authenticated user is not authorized to perform the action

Get Drivers By Restricted Search

GET <https://api-sandbox.onde.app/v1/company/{companyId}/driver/restricted-search>

Parameters

searchQuery

string (query)

OpenSearch query string for brands search. See <https://opensearch.org/docs/latest/query-dsl/full-text/query-string/> for DSL description

excludeRatePlanId

string (query)

Drivers with provided rate plan ids will be excluded from search result

state

string (query)

Available values:

INVITED, NOT_ACTIVATED, ACTIVE, SUSPENDED, CLOSED, MIGRATED, CLOSE_REQUESTED

payoutStatus

string (query)

Available values:

INCOMPLETE, WAITING_FOR_REVIEW, APPROVED, REJECTED

balanceFrom

string (query)

balanceTo

string (query)

yearFrom

string (query)

yearTo

string (query)

status

string (query)

Available values:

INVITED, INCOMPLETE_REGISTRATION, WAITING_FOR_ACTIVATION, REJECTED, ACTIVATION_ON_HOLD, ACTIVE, CLOSE_REQUESTED, SUSPENDED, CLOSED, MIGRATED

ratePlanId

array<string> (query)

Rate plan ids to filter by

serviceType

array<string> (query)

Available values:

ECONOMY, CLASSIC, BUSINESS, LUXURY, RICKSHAW, MOTO, TESLA, BLACK_CAR, BLACK_CAB, SUV, MINIVAN, VAN, BUS, LIMOUSINE, HELICOPTER, SPEED_BOAT, YACHT, TOW_TRUCK, AMBULANCE, PARATRANSIT, DELIVERY_TRUCK, MOTO_XL, COURIER, PEDICAB, TOW_TRUCK_SMALL, TOW_TRUCK_INDUSTRIAL, ELECTRIC_VEHICLE, GIRL_DRIVER, RORMORK, TESLA_MODEL_X, TESLA_MODEL_3, PICKUP_TRUCK, MICRO_BUS, EXCEPTIONAL, MERCEDES_MAYBACH, MERCEDES_V_CLASS, AIRPORT_TRANSFER, BUSINESS_JET, REFUELING, TRIPORTEUR_DOCKER, WITH_CHILD_SEAT, GARBAGE_TRUCK, COMMERCIAL_MINIBUS, CARGO_TRUCK, FLATBED_TRUCK, CONTAINER_TRUCK, OPEN_SIDED_TRUCK, OPEN_SIDED_TRUCK_WITH_TRAILER, HANDYMAN, PLUMBER, ELECTRICIAN, LOCKSMITH, DOCTOR, NURSE, MAID, BABYSITTER, LAWYER, INSURANCE_INSPECTOR, CLAIMS_ADJUSTER, BICYCLE, COMMERCIAL_MINIBUS_LONG, MEDIUM_CARGO_VAN, SMALL_CARGO_VAN, GOLF_CART, YACHT_LARGE, YACHT_MEDIUM, SIM_CARD, PET_FRIENDLY, BLACK_CAB_ELECTRIC, RICKSHAW_CARGO, RICKSHAW_DELIVERY, ECONOMY_YELLOW, MINIVAN_YELLOW, SPACESHIP

sortColumn

string (query)

Field name to sort by

firstSingInCompleted

boolean (query)

sortOrder

string (query)

Default: ASC

Available values:

ASC, DESC

Responses

200: Company drivers

401: Authenticated user is not authorized to perform the action

Get Driver Orders

GET <https://api-sandbox.onde.app/v1/company/{companyId}/driver/orders>

Parameters**orderStatus**

array<string> (query)

Available values:

CANCELLED_BY_OPERATOR, CANCELLED_BY_DRIVER, CANCELLED_NO_CUSTOMER,
OBSOLETE_CANCELLED_PASSENGER_OUT_OF_CONDITION,

OBSOLETE_CANCELLED_NO_CONFIRM, CANCELLED_EXPIRED, CANCELLED_BY_SYSTEM, DISPOSED, OBSOLETE_OPEN, SEARCH, OBSOLETE_SEARCH_BROADCAST, OBSOLETE_SEARCH_MANUAL, ASSIGNED, OBSOLETE_CONFIRM, STARTED, ARRIVED, OBSOLETE_NO_CONTACT_BY_DRIVER, OBSOLETE_NO_CONTACT_BY_PASSENGER, TRANSFERRING, REVIEW_SUMMARY, PAYMENT, FINISHED_PAID, FINISHED_UNPAID, OBSOLETE_NEW, PICK_UP_POINT, DROP_OFF_POINT, STOP_POINT

Order statuses to filter

from

integer (query)

Filter orders completed starting from

to

integer (query)

Filter orders completed ending to

searchQuery

string (query)

Phone number to filter by

Responses

200: Driver drivers

401: Authenticated user is not authorized to perform the action

Get Order

GET https://api-sandbox.onde.app/v1/company/{companyId}/driver/orders/{orderId}

Parameters

orderId

string (path)

Id of requested order

Responses

200: The requested order

401: Authenticated user is not authorized to perform the action

Refund Driver Transaction For Order

POST <https://api-sandbox.onde.app/v1/company/{companyId}/driver/orders/{orderId}/refund>

Parameters

orderId

string (path)

Id of requested order

Body

```
{
  "transactionId": "string",
  "comment": "string"
}
```

Responses

200: The refunding transaction

400: In case of missed comment or not valid for refund transactions

401: Authenticated user is not authorized to perform the action

403: In case restricted permissions can not be granted or removed

404: In case no order with requested transaction for given company

Get Driver

GET https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}

Responses

200: The requested driver

401: Authenticated user is not authorized to perform the action

Update Driver Profile

PATCH https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}

Body

```
{
  "customKey": "string",
  "state": "string"
}
```

Responses

200: The patched driver

401: Authenticated user is not authorized to perform the action

Get Last Driver Location

GET https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/location

Responses

200: The last driver's location

204: If no last location unknown or has never been set

401: Authenticated user is not authorized to perform the action

Transfer Driver Profile To Another Account

POST https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/transfer

Parameters

Body

```
{
  "identityType": "PHONE",
  "identity": "string"
}
```

Responses

200: The transferred driver

401: Authenticated user is not authorized to perform the action

Request Driver Topup Invoice

POST https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/topUp

Body

```
{
  "money": {
    "amount": 0,
    "currency": "USD",
    "formattedName": "string"
  },
  "comment": "string"
}
```

Responses

200: The created invoice

401: Authenticated user is not authorized to perform the action

Request Driver Withdrawal Invoice

POST https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/withdraw

Body

```
{
  "money": {
    "amount": 0,
    "currency": "USD",
    "formattedName": "string"
  },
  "comment": "string"
}
```

Responses

200: The created invoice

401: Authenticated user is not authorized to perform the action

Commit Driver Invoice

POST https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/commit

Body

```
{
  "invoiceId": "string"
}
```

Responses

204: The invoice committed successfully

400: In case of invalid request body

401: Authenticated user is not authorized to perform the action

Update Driver Settings

PUT https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/settings

Parameters

Body

```
{
  "syncStatus": "string",
  "driverEligibilityExpireAt": 0,
  "vehicleEligibilityExpireAt": 0,
  "vehicleLicenseExpireAt": 0
}
```

Responses

204: The settings updated successfully

401: Authenticated user is not authorized to perform the action

Add Correction To Driver's Reputation

POST

<https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/reputation-correction>

Body

```
{
  "value": 0,
  "expireInHours": 0
}
```

Responses

200: New driver reputation according to correction

400: Possible error codes:

- DRIVER_IS_NOT_FOUND
- DRIVER_IS_DELETED
- DRIVER_IS_MIGRATED
- REPUTATION_NOT_FOUND
- REPUTATION_CORRECTION_ALREADY_SET
- WRONG_REPUTATION_CORRECTION_VALUE
- WRONG_REPUTATION_CORRECTION_EXPIRE_IN_HOURS

401: Authenticated user is not authorized to perform the action

Delete Correction To Driver's Reputation

DELETE

<https://api-sandbox.onde.app/v1/company/{companyId}/driver/{driverId}/reputation-correction>

Responses

204: Reputation correction removed successfully

400: Possible error codes:

- NOT_FOUND

401: Authenticated user is not authorized to perform the action

Get Company Managers Permissions Config

GET

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/permissions-config>

Responses

200: Company manager's permission config

401: Authenticated user is not authorized to perform the action

Get Company Managers

GET <https://api-sandbox.onde.app/v1/company/{companyId}/company-manager>

Parameters

Responses

200: The list of company's managers

401: Authenticated user is not authorized to perform the action

Create New Company Manager Profile

POST <https://api-sandbox.onde.app/v1/company/{companyId}/company-manager>

Body

```
{
  "companyManagerId": "string",
  "fullName": "string",
  "phone": "string",
  "email": "string",
  "imageUrl": "string",
  "customKey": "string",
  "permissions": [
    "string"
  ]
}
```

Responses

200: Created company manager

401: Authenticated user is not authorized to perform the action

403: In case restricted permissions can not be granted or removed, protected profile does not have owner permissions or payer profile does not have login permissions after creation

Get Company Manager Profile

GET

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: The requested company manager

401: Authenticated user is not authorized to perform the action

Update Company Manager Profile

PUT

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}>

Parameters

companyManagerId

string (path)

Company Manager ID

Body

```
{
  "permissions": [
    "string"
  ]
}
```

Responses

200: Updated company manager

401: Authenticated user is not authorized to perform the action

403: In case restricted permissions can not be granted or removed, protected profile does not have owner permissions or payer profile does not have login permissions after update

Update Company Manager Profile

PATCH

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}>

Parameters

companyManagerId

string (path)

Company Manager ID

Body

```
{
  "customKey": "string",
  "state": "string",
  "permissions": [
    "string"
  ]
}
```

Responses

200: Patched company manager

401: Authenticated user is not authorized to perform the action

403: In case restricted permissions can not be granted or removed, protected profile does not have owner permissions or payer profile does not have login permissions after update

Close Company Manager Profile

DELETE

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Closed company manager

401: Authenticated user is not authorized to perform the action

Transfer Company Manager Profile To Another Account

POST

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/transfer>

Parameters

companyManagerId

string (path)

Company Manager ID

Body

```
{
  "identityType": "PHONE",
  "identity": "string"
}
```

Responses

200: Transferred company manager

401: Authenticated user is not authorized to perform the action

Activate Company Manager Profile

PUT

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/activate>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Activated company manager

401: Authenticated user is not authorized to perform the action

Suspend Company Manager Profile

PUT

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/suspend>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Suspended company manager

401: Authenticated user is not authorized to perform the action

Resume Company Manager Profile

PUT

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/resume>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Resumed company manager

401: Authenticated user is not authorized to perform the action

Protect Company Manager Profile

POST

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/protect>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Protected company manager

401: Authenticated user is not authorized to perform the action

Unprotect Company Manager Profile

POST

<https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/unprotect>

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Unprotected company manager00: Bad request — invalid or missing parameters

401: Authenticated user is not authorized to perform the action

Generate New API Token

PUT

`https://api-sandbox.onde.app/v1/company/{companyId}/company-manager/{companyManagerId}/generateToken`

Parameters

companyManagerId

string (path)

Company Manager ID

Responses

200: Company manager with generated API token

401: Authenticated user is not authorized to perform the action

Set Payer Profile Id

POST `https://api-sandbox.onde.app/v1/company/{companyId}/billing/payer/set`

Responses

200: Payer profile

401: Authenticated user is not authorized to perform the action

403: In case payer account has no credit card set up

Clear Payer Profile Id

POST <https://api-sandbox.onde.app/v1/company/{companyId}/billing/payer/clear>

Responses

204: Company's payer profile was cleared

401: Authenticated user is not authorized to perform the action

Get Company Driver Licenses State

POST <https://api-sandbox.onde.app/v1/company/{companyId}/billing/driver-licenses>

Responses

200: Driver licenses state

401: Authenticated user is not authorized to perform the action

Get Company Features Config

GET <https://api-sandbox.onde.app/v1/company/{companyId}/features>

Responses

200: Company's features

401: Authenticated user is not authorized to perform the action

```

Responses

200: Company's accepted payment gateways info

401: Authenticated user is not authorized to perform the action

Set Tariff Working Zones

PUT <https://api-sandbox.onde.app/v1/company/{companyId}/tariff/{tariffId}/workingZones>

Parameters

tariffId

string (path)

Id of the tariff

Body

```
{  
  "workingZonelds": [  
    "string"  
  ]  
}
```

Responses

204: Tariff working zones successfully set

401: Authenticated user is not authorized to perform the action

Set Tariff Addon Url

PUT https://api-sandbox.onde.app/v1/company/{companyId}/tariff/{tariffId}/addonUrl

Parameters

tariffId

string (path)

Id of the tariff

Body

```
{  
  "addonUrl": "string"  
}
```

Responses

204: Tariff addon url successfully set

401: Authenticated user is not authorized to perform the action

Get Tariff Price Rates

GET <https://api-sandbox.onde.app/v1/company/{companyId}/tariff/{tariffId}/dynamicPriceRates>

Parameters

tariffId

string (path)

Id of the tariff

timestamp

integer (query)

Responses

200: Tariff price rates

400: In case timestamp is not provided or less then 1

401: Authenticated user is not authorized to perform the action
